PROFESSIONAL SUMMARY

Business Operations and Data Analysis professional with 3.5+ years of experience managing large-scale operational databases, driving cross-functional process improvements, and delivering actionable insights through advanced Excel, SQL, and Power BI. Proven ability to own end-to-end project pipelines, build scalable SOPs, and translate complex data into decisions that directly impact cost efficiency and stakeholder outcomes. Comfortable operating in fast-moving environments across diverse industries and functions.

PROFESSIONAL EXPERIENCE

ZoomRx, Senior Associate – Business Operations and Data Analysis (Promoted) 08/2022 – 03/2026 | Chennai, India

Data Systems & Database Governance

- **Operations Database Governance:** Supported panel operations for a 50,000+ global HCP database using SQL queries for data extraction, validation, and performance tracking.
- **Data-Driven Process Optimization:** Built and automated MIS dashboards and KPI trackers in Advanced Excel across ~10 concurrent Awareness, Trials & Usage (ATU), Patient Chart Audit (PCA), and Sales Force Effectiveness (SFE) project pipelines.

Process Engineering & Cross-Functional Delivery

- **Cross-Functional Operations Coordination:** Served as the operational bridge between non-technical regional teams and core engineering/product groups, unblocking dependencies and deploying hotfixes rapidly.
- **Scalable SOP & Knowledge Architecture:** Developed and maintained SOPs and training materials to standardize automated Freshdesk ticket routing across business units.
- **End-to-End Operational Excellence:** Redesigned Freshdesk triage framework, cutting ticket resolution TAT from 1 day 23 hours to 21 hours — directly protecting premium panel retention.

Financial Tracking & Stakeholder Alignment

- **Budget & Margin Optimization:** Managed project budget allocations, holding delivery costs to 17% of SoW value against a 19.5% benchmark.
- **Stakeholder Alignment & Insights:** Supported cross-functional leadership in defining project metrics and KPIs, contributing to a 20% increase in campaign response velocity through performance analysis.
- **Global Proposal Delivery:** Led feasibility assessments, vendor coordination, and sample costing for proposals across 18 of the top 20 global pharma companies.

Chegg India, Subject Matter Expert (Part-time/ Freelance)

03/2021 – 07/2022 | Remote, India

Provided detailed, step-by-step solutions for undergraduate-level problems across Circuit Analysis, Power Systems, Electromagnetic Theory, and Control Systems; maintained strict adherence to Chegg's accuracy and quality standards throughout engagement.

EDUCATION

B.Tech - Electrical & Electronics Engineering, Amrita Vishwa Vidyapeetham

06/2017 – 03/2021 | Kollam, Kerala

Projects

Adventure Works Sales Analytics Dashboard | Power BI 📊

- Developed an end-to-end interactive Power BI dashboard to analyze sales, profitability, customer behavior, product performance, and regional trends.
- Performed data transformation using Power Query and designed a dimensional data model for reporting.
- Created DAX measures and KPI dashboards to support business analysis and executive reporting.
- Built interactive visualizations with slicers, trend analysis, and drill-down capabilities.

CORE COMPETENCIES

Data & Analytics

MIS Reporting, Dashboard Development, Data Validation, KPI Tracking, Performance Analytics.

Operations & Strategy

Process Mapping, Workflow Optimization, Vendor Management, Cost Optimization, Margin Analysis.

Leadership & Alignment

Cross-Functional Collaboration, Stakeholder Management, Executive Communication, Feasibility Analysis.

TECHNICAL SKILLS

Database Management & Querying

SQL (Intermediate Querying, Inner/Outer Joins, Aggregations, Data Extraction, Subqueries).

Process Architecture

Process Documentation, SOP Creation, Workflow Mapping, Gap Analysis.

Helpdesk & Ticketing

Freshdesk (Automated Triage Routing, Ticket Management, SLA Monitoring)

Business Intelligence & Automation

Advanced MS Excel (VLookUps, Pivot Tables, Power Query, Complex Formulas, Automated KPI Dashboards), Power BI (Data Modeling, DAX, Visualizations), Python Libraries (NumPy, Pandas - Currently Upskilling).

Business Communication

PowerPoint (Stakeholder Presentations, Insight Delivery), Cross-Functional Tools.
